

10-Second Tips

Got a sec? How about 10? Become a master of all things TV and wireless with these super-quick tips

CREATE A ROGERS ON DEMAND ONLINE PLAYLIST

Play TV shows, video clips, music videos and movies without having to return to the main menu

- 1 If you haven't already, register for **Rogers On Demand Online** (it's free*) at rogersondemand.com.
- 2 Sign in and scroll through the thumbnail descriptions of TV shows, movies, clips and more. To add an item, just click on the + symbol under the image.
- 3 When finished, click **My Playlist** at the top of the screen. You can also remove any item from your playlist here.
- 4 To watch, click on any of the items. Your playlist will now start.
- 5 After your video has finished you can continue to select other videos to watch from your playlist, conveniently located along the right side of the screen.

* Some content, including movie rentals, is available for a fee.

HOW TO CREATE A ROGERS ON DEMAND PIN CODE

Some On Demand content, such as just-released movies or sporting events, incur rental charges. To rent anything you must enter in your own, unique PIN code (default: 0000). Here's how to change your PIN.

- 1 Press **Settings** twice on your Rogers remote control to reach the **General Settings** screen on your TV.
- 2 Scroll down the list and select **Purchase PIN**, then press **OK**.
- 3 Scroll through the next list and select **Enable** to activate your PIN code. Then follow the prompts and, when complete, press **Exit**.

HOW TO ADD YOUR TWEETS TO FACEBOOK

Automatically forward your Twitter messages to Facebook

- 1 Go to apps.facebook.com/twitter and log in. Follow the prompts and permissions.
- 2 You will be asked: would you like to connect your Twitter and Facebook account? Select **Allow**.
- 3 On the next screen, check the box next to "Allow Twitter to update my status without notifying me" and click **Authorize Twitter**.

TIP

Want more Twitter followers? When it comes to effective tweeting, remember these three R's: tweet regularly, keep it relevant and retweet content from other users.

HOW TO

CHECK YOUR MONTHLY WIRELESS USAGE

Three ways to check your airtime, data and text-messaging usage

CLICK IT

- 1 Visit rogers.com and log into your My Rogers account (or create an account if you don't have one already; it's free).
- 2 In the **Wireless** section, click **Load Wireless Usage**.

APP IT

- Download the free app from your device's app store.
- 1 Open the **My Account** app.
 - 2 Select **Check Wireless Usage**.

TAP IT

- 1 Select **Internet** from the main menu; or just text **HOME to 4836** and select the **My Account** link from your home page.
- 2 Click **More** under **My Account**.

RESET YOUR HI-SPEED CABLE MODEM

Having trouble connecting to the internet? Try these two quick-fixes first:

fix No. 1

Press the **reset** button on the modem, and then restart your computer.

OR

fix No. 2

If your modem doesn't have a dedicated reset button, simply unplug it from the wall, wait 30 seconds and then plug it back in. Then restart your computer.

HOW TO

RINGBACK CONTROL

How to turn Ringbacks on or off on any device

- 1 Text **OFF to 555** on your mobile device (text is free).
- 2 You will receive a text labeled "Ringbacks." Click the link inside the message.
- 3 Then, under the heading **Ringbacks On/Off**, select the action you'd like to complete.
